

SARNIA ISA 2009 SHOW RULES

Show Hours: Tue, February 24, 2009 12:00 pm - 7:00 pm

Installation of Exhibits: Mon. February 23, 2009 3:00 pm - 8:00 pm
Tue. February 24, 2009 8:00 am - 11:00 am

Removal of Exhibits: Tue. February 24, 2009 7:00 pm - 9:00 pm

A standard 8 foot long table complete with skirting will be provided by the show. Power supply (110 VAC) will be available to all exhibitors.

All displays must go on the table except where a heavier piece is involved. The heavier piece may be placed on the floor in combination with a smaller table. The supply of the smaller table is the sole responsibility of the exhibitor as smaller tables will not be provided by the show. The combined display must not exceed the space allotted to a single 8 foot long table display and must not impede upon the space allotted to neighboring exhibitors or extend into the visitor walkway.

Exhibitors requiring power at their table must have at least one 30-foot extension cord. Exhibitors requiring more than one outlet are required to supply their own approved power bar (multi-outlet device). The show will not supply extension cords or multi-outlet devices (power bars).

There are no height restrictions on table top displays; however, the display must sit securely on the table top and be sturdy. Any floor standing back drops must fit flush against the back of the table.

The show has a definite closing time of 7:00 pm. No exceptions.

All participating companies are expected to promote the show.

Hospitality suites during show hours are discouraged. The ISA Sarnia section 13 2009 table top show assumes no responsibility or affiliation to any hospitality events during show hours.

Exhibitors shall insure their own exhibit and display materials. Exhibitors must carry public liability insurance against injury to persons and the property of others.
