

ANNOUNCEMENTS

► The section regrets to advise all our members and vendors that the proposed Valve Seminar and Expo anticipated for February 2006 has been cancelled. We appreciate all the vendors and members who consented to participate and we send our gratitude.

► We would like to thank Paul Strong for his good work as Program Chairperson and Honours & Awards Chairperson over the last many years. Paul has accepted a new position in the Toronto area. We wish his family and him well in the future. Thanks Paul!

Please oblige... we need your support to plan your evening!

▸ June 9, 2006 - ISA Golf Tournament

Mr. Andrew Brodie: Yokogawa Corporation

Andrew is a Product Sales Engineer for Yokogawa Corporation, based in Marietta, Georgia. Andrew's responsibility includes marketing of data acquisition and control business in the northeast and southeast regions by providing technical expertise to Yokogawa sales network. Andrew has a strong background in the technical and marketing aspects of industrial process control including SCADA/HMI systems. He is an MBA in Technology Management, a BSB in Information Systems and an Associates Degree in Industrial Instrumentation Technology.

Networking & Connectivity "101" is a primer in basic networking and connectivity issues for the process control industry. This presentation assumes networking to be a new subject for attendees. A network configuration example using a PC and a data acquisition system (used by instructor) is combined with a PowerPoint presentation to introduce instrument technicians, engineers, operators, and managers to networking concepts. Presentation will cover wired and wireless networks as well as software connectivity between devices and SCADA systems.

President's Message

Greetings once again from the Sarnia Section Executive. We have recently been represented at the President's Fall Meeting in Chicago, where we were presented a Section Gold Award. I look forward to other information from the meeting from those representing us - Randy Dennie as DVP, and Brian Smith as Past President.

The executive in once again working on a tabletop for February, as you will see form elsewhere in the newsletter. I would point out that these things don't just happen, they are the result of diligent efforts on the

part of always too few people. If you have an interest in this tabletop focused on control valves, then step up to the plate and help out. We can always use more hands, even if the amount of time you can afford to contribute is small. Remember that the benefit you receive from ISA is proportional to the amount of effort you invest.

We have a great executive this year, and things are off to a great start, but if you would like to pass on your expectations, we can better produce the result you are interested in. Should this pertain to the Dinner

Meetings, feel free to contact either Kalpen, our Program Chair or myself. I am always interested in hearing new ideas, and would be glad to help any ideas you might have to move forward. I can be contacted at work 431-1916, or Don.Murch@opg.com, at home 542-1836, or murchfam@sympatico.ca. If I should happen to not talk with you beforehand, have a great holiday season.

Don Murch, CET
ISA Sarnia Section President

ISA Executive 2005-2006
