President's Message

I would like to take this opportunity to welcome all the Executive and Members to another great year. I trust that everyone had a great summer, and am looking forward to meeting with you during this year. I hope that you will take this opportunity to come and see us during one of the many social activities that are planned for this year. For new members our year runs from September through June with no events in July and August.

Our final program event for 2006 was the ISA Sarnia Section's Awards Night. The Awards night was very well attended by 40 members and guests. It was a great success! Congratulations! Go out to all the award recipients, many thanks to the Program Committee & vol-

unteers who made the evening great fun. The ISA Golf Tournament as well was a great success thanks go out to the Golf Committee & volunteers.

At this time of year I would also like to welcome the newly elected ISA Sarnia Executive and look forward to an interesting and challenging year. A couple of the mandates this year is to look at new and innovative ways to increase membership, retention of members and look at increasing numbers at the dinner meetings. I have made it quite clear to this year's Executive that we need to look outside the box when it comes to these issues and find more creative solutions.

Sarnia Executive and members at

large if you have any suggestions for improving our Sarnia Section including program events, educational seminar topics, technical content, or if you would like to get more involved. Next year we will need some short courses, educational seminar speakers as 2007 is our ISA Sarnia Show & Technical Conference year.

So come out and show your support for the section by attending our first general meeting on Sep 25.
