Evening Topic

This dinner presentation is vendor-neutral, offering an overview of the technology providing the basic understanding of how easy it is to have a common tool-set that accesses a manufacturer's device intelligence on **most** communication platforms.

A live technology demonstration highlighting the business benefits of the technology will showcase how **commissioning is made easy** and **advanced diagnostics are graphically displayed**, making the life of a plant engineer a little easier.

President's Message

Presidents Message

Hello to All,

Welcome to the 2011-2012 term. I am very proud to be representing the ISA Sarnia Section as your president.

My predecessor, Jeff Talbot did a fine job at the helm of our organization and I would like to thank him for his camaraderie and efforts put forth.

We have an excellent group of gentlemen looking after many chairs to fulfill the obligations of our charter, with only a few empty chairs to fill. If anyone is interested in furthering their ISA experience on the executive level, please contact me or anyone on the executive board.

I feel communication is the key to future sustainability. With improved communication, we can achieve better attendance, larger enrollment, better participation in our activities, education seminars, and get-together/outings.

The Sarnia Section is in good standing and has the opportunity to maintain the path that has been forged as well as try new avenues of interest. So far we have put together a line-up of interesting speakers and entertaining meetings that will give the feeling of good value for the investment.

Please feel free to contact me with any issues, concerns, comments or suggestions.

Best Regards,
Rob Dickson
