Guest Speaker Abstract

Hoag Ostling - *Foundation Fieldbus. Pitfalls of Installation*

Hoag Ostling is Chief Application Engineer for Field Instruments at Yokogawa Corporation of America, Newnan, GA. He has over 25 years of experience in all areas of process control instrumentation including research, design, manufacturing, and application. Mr. Ostling was a charter member of the HART Foundation, and an active participant in the development of Foundation Fieldbus device descriptions. Mr. Ostling previously held positions with Dow Chemical and Micro Motion Inc., as application engineer and instrumentation engineer. He began his career in process control instrumentation after receiving a BS degree in Mechanical Engineering from Clemson University.

Sarnia Section ISA Dinner Meeting

Above: Our thanks to November's Guest Speaker Greg Rude.

Dear ISA Members

This year has been filled with challenges, an number of changes, and many bright spots in ISA. We offered a greater number and wider variety of books, training courses, technical conferences, and regional shows, and this emphasis on valuable technical content will continue to grow next year.

The ISA 2002 Annual Meeting and Exhibit, although smaller than in recent years, was well received and the outlook is for growth in 2003. It has been a pleasure and an honour for me to serve as your president over the last year. Thank you for being a part of the ISA family. I wish you and yours a safe and happy holiday season!

Regards, Pino Sani, 2002 ISA President

ISA President's Message

Let me first wish all of you A Happy New Year. By the time you will read this message the holiday season will be over and everybody must be back to their routine. Where has the year 2002 gone! Before we all know, it will be the time for our section's show, which will be held on Tuesday, February 25 at the Holiday Inn.

It is my New Year wish that, myself and other I&C practitioners can spend more time learning new products and technologies. But, because of the requirement to produce more in less time and with less man-power, the 40 hours work week does not leave us with a lot of time to learn. The Sarnia Section Show will give you an opportunity to learn those new products and technologies right at your door steps and will also provide you an opportunity to network with other I&C practitioners. Let me tell you this year's show will be too valuable to miss. It will feature the tabletop displays from approximately 80 vendors and 4-5 seminars on latest technologies. There will be a "Foundation Fieldbus Pavilion" which will feature "Foundation Fieldbus Interoperability Demonstration" from major suppliers in that field.

Let me remind you that our regular dinner meetings are an excellent platform for all of you to voice your opinion in determining our section's direction and future activities. I will be glad to receive your opinion on how we are doing and what more we can do to serve you better, so please come out and join us at our section's upcoming dinner meeting on January 27, 2003.

I will appreciate an opportunity to wish you all A Happy New Year in person at the next dinner meeting.

Kalpen Vachharajani - President

Randy Dennie and Mike Grey represented the Sarnia ISA Section at Lambton College's Academic Awards Luncheon on November 26, 2002 at the Holiday Inn. The Sarnia Section presented three scholarships, at \$500 each, to student enrolled in Lambton College's Instrumentation and Control Engineering Technology Program (ICET). The award recipients were Adam Beck, Mikhael Erhard and Andrew Doern.
