ISA Guest Speaker Abstract

Jonathan Paterson

"High Definition Surveying to Reduce Risk in Project Engineering"

This presentation will address Dimensional Laser measurement or the High Definition Survey as a strategy to leverage pre-engineering and reduce risk in retrofit projects. Value engineering is realized through the use of 3D scans early from project inception. The risk of retrofits vs. the risks of Greenfield projects will be discussed. Clashes with existing plant equipment, structures and utilities are checked against new engineering layouts to avoid costly corrective field measures.

Jonathan Paterson graduated from Mohawk College in 1981 as a Mechanical Engineering Technologist. His formative years in industry with Oxford Welding & Machine Ltd. were steeped in heavy construction equipment repair, industrial installations, piping & boiler and pressure vessel repairs. Since 1993 he has managed the affairs of the industrial process division of J-Tech Design Ltd. Servicing OEM's, Owner/Operator's, Engineers and Constructors with confidence in field measurements, equipment layouts & fabrication details for prevailing condition-based projects.

President's Message

Greetings to all once again from the Sarnia Section Executive. Well, it's hard to believe that it is that time again, but here it is. We are once again trying to fill our slate of officers for the coming year. Now, as always there is room for fresh faces and ideas, so if you have any thoughts of taking on a position, now is the time. We have a very active, enthusiastic section, and new people and ideas help keep it that way. Everyone is welcome and has equal time to express new ideas and opinions. Help us out, get more out of your ISA, and participate! We look

forward to presenting the nominees for election at the annual awards meeting. We have had an interesting year, and will continue the program into our awards night dinner coming up this month. Our Program Chair, Paul Strong has put together what should prove to be an interesting topic, and the food is always good at the Sarnia Golf and Curling Club. It is worth mentioning and expressing kudos to Paul, with assistance from Kalpen in scrambling to replace the speaker who fell ill immediately prior to the last dinner meeting. Possibly even bigger

kudos to Brian Smith who pulled together a presentation for us, and did a fine job of it at that!

To help round out the season, we also have the President's Spring meeting, and the DLC in Hamilton. Please consider coming out to the DLC and learn more about some of our peers in the rest of the district, as well as learning more about how ISA works.
